

Submission of "Document on Primary Environmental Impact Consideration for Offshore Wind Power Project off the coast of Shimamaki, Hokkaido (tentative name) "

January 14, 2025

The Kansai Electric Power Co., Inc.

The Kansai Electric Power Co., Inc. (hereinafter, "KEPCO") and RWE Renewables Japan G.K. (hereinafter, RWE) today submitted the Documents on Primary Environmental Impact Consideration (hereinafter, Documents) for the Offshore Wind Power Project off the coast of Shimamaki, Hokkaido to the Minister of Economy, Trade and Industry and requested the Governor of Hokkaido to provide his opinion in accordance with the Environmental Impact Assessment Law.

The Documents will be made public from January 15 to February 14 of this year at relevant administrative agencies and on the KEPCO's website.

KEPCO and RWE will continue to study the feasibility of implementing the project, giving due consideration to environmental preservation, after receiving opinions from local residents and relevant government agencies.

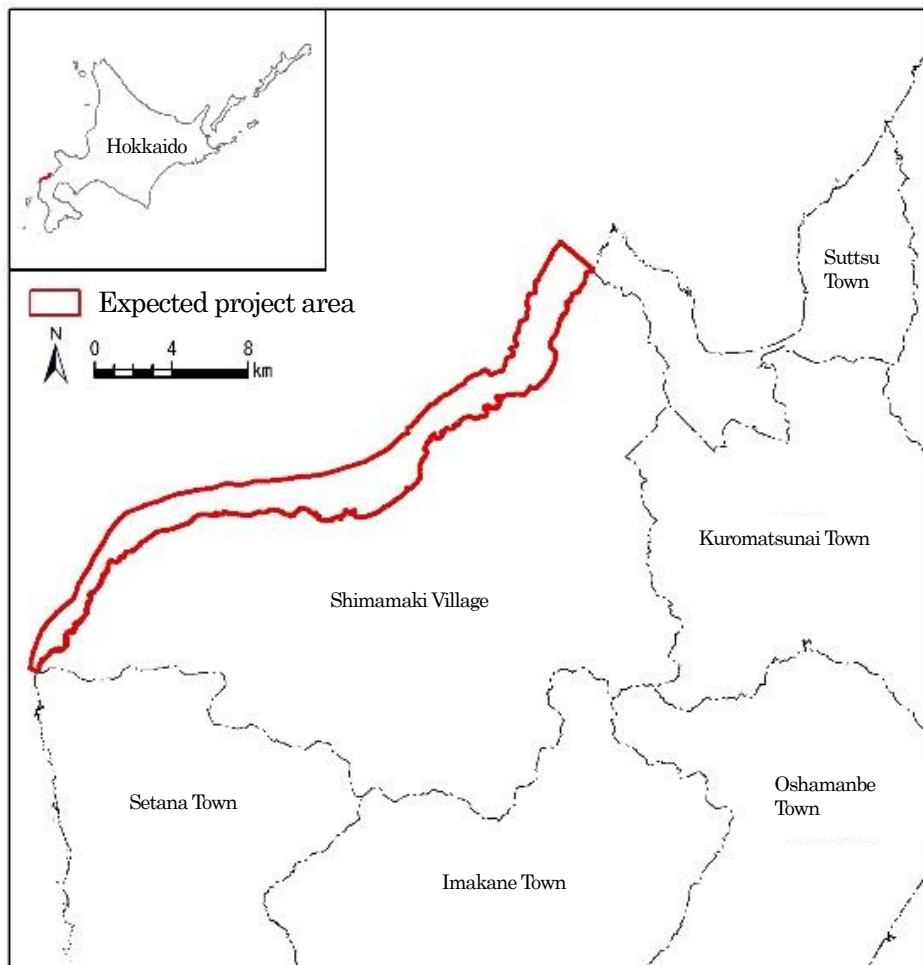

KEPCO Group is committed to the expansion of renewable energy, with a target of 5 GW scale of new development and 9 GW scale of cumulative capacity by 2040 domestically, thereby contributing to the realization of a zero-carbon society.

*This report examines matters that should be considered for the preservation of the environment and summarizes the results.

<Outline of Offshore Wind Power Project off the coast of Shimamaki, Hokkaido (tentative name)>

Business operator	KEPCO and RWE
Location	Offshore of Shimamaki Village, Hokkaido
Expected capacity	Approximately 600,000 kW at maximum (Approximately 43 units at maximum of 14,000 - 24,000 kW classed wind turbine)
Future procedure	<u>Document on Primary Environmental Impact Consideration (this time)</u> → Scoping Document → Survey → Draft Environmental Impact Statement → Environmental Impact Statement

<Expected project area>

* The above map is based on GSI tiles published by the Geospatial Information Authority of Japan (GSI).

* The area surrounded with the red line is the expected project area.
